

Possible COVID Exposure?

Were you recently in close contact with a person who has now tested positive for COVID?

"Test to Treat"

Home test kits are available at the Nisqually Pharmacy drive-through.
8 am - noon and 1 pm - 5 pm.

We have medications for people who have COVID symptoms and then test positive.

The Nisqually Clinic will offer mass testing on Wednesday morning, May 4th and Thursday morning, May 5th.

- If you were in close contact with someone who has tested positive for COVID, and are unvaccinated please quarantine for five days. Get a test if you develop symptoms.
 - If you are vaccinated with two doses of vaccine, but have never had a booster, please quarantine for five days. Get a test if you develop symptoms.
 - If you are "up to date", (vaccinated and boosted) and are asymptomatic, you may follow your usual routine. You may want to do a home test.
